Orthopedic Center of Florida's Daniel J. Harmon, D.O. To Speak at Brookdale Bonita Springs' "Fall Prevention Awareness Day" Event

September 22, 2015, Bonita Springs, Fla. - Orthopedic Center of Florida (OCF), recognized nationally and locally as leaders in the medical field of orthopedics since 1986, opened its second practice in September of 2014 at the Bonita Community Health Center with Daniel J. Harmon, D.O., a Fellowship Trained Orthopedic Surgeon. Serving the community as a leading surgeon and an experienced instructor of the Anterior Total Hip Replacement procedure, Dr. Harmon will be a guest surgeon at the "Fall Prevention Awareness Day" event to answer questions by those interested in learning more about adult reconstruction of the hip and knee.

The Fall Prevention Awareness Day health fair will be held from 9 a.m.-noon Sept. 23, at Brookdale Bonita Springs, 26850 S. Bay Drive, Bonita Springs.

Daniel J. Harmon, D.O., a specialist in adult reconstruction of the hip and knee, including revision joint replacement, explains, "These minimally invasive advanced approaches allow for a significantly faster recovery as well as decreased post-operative pain. At OCF, it's our mission to provide patients with a caring and compassionate treatment plan that emphasizes conservative treatment measures prior to surgery."

Mr. Bob Passmore, a Fort Myers resident and patient of Dr. Harmon states, "Before hip surgery, I couldn't walk one tenth of a mile without pain. Swinging a golf club was a chore. Now I walk about three miles a day and have played golf four times since my surgery four weeks ago with Dr. Daniel Harmon."

About Daniel J. Harmon, D.O:

After receiving his medical degree from Lake Erie College of Osteopathic Medicine, Dr. Harmon completed a five year orthopedic surgery internship and residency at The Cleveland Clinic Foundation/South Pointe Hospital in Ohio, followed by a one year fellowship in Adult Reconstruction of the Hip and Knee at Allegheny General Hospital in Pittsburgh, Pennsylvania. Now serving the community as a leading surgeon and an experienced instructor of the Anterior Total Hip Replacement procedure, his extensive sub-specialty training in minimally invasive muscle sparing surgical techniques of the hip and knee has provided successful results with patients in southwest Florida.

Dr. Harmon is a member of the American Osteopathic Association, The American Osteopathic Academy of Orthopedics, The American Academy of Orthopedic Surgeons, The International Congress for Joint Reconstruction, Florida Osteopathic Medical Association and Lee County Medical Society.

About The Bonita Community Health Center in Bonita Springs, Florida:

The Bonita Community Health Center, located at 3501 Health Center Boulevard, established as a partnership between two of the most experienced and respected names in Southwest Florida health care; Lee Memorial Health System and NCH Healthcare System (Naples Community Hospital).
